Brief Summary of Annual Report

(A.Y 2019-20)

Our faculty had participated in Refresher/FDP/PDP/AdministrativeTraining Programmes at various Colleges during the A.Y 2019-20. The distinct program list shown above.

1. FDP on "Trends in Digital Design"

One-week online FDP on "Trends in Digital Design" was organised by Department of Electronics and Communication Engineering from 09-07-2020 to 14-07-2020. **Mr. S. M. Hemath Kumar**, Field Assistant Engineer, EDA, VLSI, Mr. Vijaykumar R. Urkude, Head of the Department, ECE, VMTW, Mrs. Anusha Pinisetty, Assistant Professor, Department of ECE, VMTW, Mr. Chandra Sekhar Sattar, Design and Application Engineer, Xilinx and Mr. J. Sunil Kumar, Assistant Professor, Department of ECE, VMTW delivered the talk and conducted hands on sessions. The resource person has explained in detail about the recent trends in Digital Design and its concepts. Total 461 participants had registered for the FDP and around 250 actively participated in this FDP for all the sessions. This FDP had provided a well adverse opportunity to learn about "Digital Design" to all the active participants.

2. FDP on "Block chain Technology & its Applications"

One Week FDP on "Blockchain Technology & its Applications" conducted by Department of Computer Science and Engineering in association with Brain-O-vision solutions, Hyderabad from 29-06-2020 to 03-07-2020.

Intazar Mehdi is the resource person for this One Week FDP session. The resource person have explained in detail about impact of Blockchain in Social Networks, Advanced Cryptographic Technologies in Blockchain, Blockchain Smart Contracts Applications, Data Consistency, Transparency and Privacy in Blockchain and Emerging Blockchain Models for Digital Currencies.Dr.S.Rangaswamy,Associate Professor of CSE Dept, Dr. Ch Basavaraj, Associate Professor, Mr.S.Dilli Babu, Asst.Prof., and Mr.M.Vishnu Vardhana Rao acted as Co-ordinators for this event. Total of 100 Members actively participated in this programme and made the event successful.

3. Workshop on "How to manage the workplace during covid-19 Pandemic"

Department of Computer Science Engineering has conducted workshop on – "How To Manage The Workplace During Covid-19 Pandemic", during 22-06-2020 to 26-06-2020 for Teaching &Non – Teaching Faculty.

Dr. Sindhu K, Gynaecologist, Hyderabadwas the resource person for this Five day workshop session.

The objective of this program is to provide deep knowledge on how to manage workplace during covid-19 pandemic.

Total around 40Teaching &Non-Teaching faculty had participated in the workshop. This workshop session had provided an excellent opportunity to learn aboutHow to manage the workplace during covid-19 pandemicto all the participants.

To The Principal, VMTW, Kondapur,Ghatkesar.

Respected Sir,

Subject: Request for approval to conduct One Week Online Faculty Development Program on "TRENDS IN DIGITAL DESIGN".

I, Vijaykumar R. Urkude, HOD(ECE) ,VMTW here by request your approval to conduct a One Week Online Faculty Development Program on "TRENDS IN DIGITAL DESIGN" for ECEand allied departments. We would like to conduct this program from 09-07-2020 to 14-07-2020. So please grant us permission for conducting the FDP.

Thanking you Sir,

Your Sincerely

Vijaykumar R.Urkude Associate Prof. &

PRINCIPAL .

OBJECTIVE: The main objective of this Faculty Development programme "Trends in Digital Design" was to discuss the recent scenario in VLSI System Design domain and thus to enhance the knowledge in respective field. Basically, the FDP is organized to discuss the basic concepts related to digital design starting with small concepts and to implement those using VHDL and Verilog HDL coding along with the details of FPGA and the applications of FPGA, an introduction to different tools that are available in VLSI stream which includes CAD Tools and a hands on experience on EDA tools.

INTRODUCTION: Digital electronics is a field of electronics involving the study of digital signals and the engineering of devices that use or produce them. This is in contrast to analog electronics and analog signals. Digital electronic circuits are usually made from large assemblies of logic gates, often packaged in integrated circuits. Complex devices may have simple electronic representations of Boolean logic functions. An advantage of digital circuits when compared to analog circuits is that signals represented digitally can be transmitted without degradation caused by noise. For example, a continuous audio signal transmitted as a sequence of 1s and 0s, can be reconstructed without error, provided the noise picked up in transmission is not enough to prevent identification of the 1s and 0s. In a digital system, a more precise representation of a signal can be obtained by using more binary digits to represent it. While this requires more digital circuits to process the signals, each digit is handled by the same kind of hardware, resulting in an easily scalable system. In an analog system, additional resolution requires fundamental improvements in the linearity and noise characteristics of each step of the signal chain. A digital circuit is typically constructed from small electronic circuits called logic gates that can be used to create combinational logic. Each logic gate is designed to perform a function of boolean logic when acting on logic signals. A logic gate is generally created from one or more electrically controlled switches, usually transistors but thermionic valves have

PRINCIPAL

Kondapur (V), Ghatkesar (M), Medchal-Malkajgiri (Dt)-501301

Telangana State

seen historic use. The output of a logic gate can, in turn, control or feed into more logic gates. Very-large-scale integration (VLSI) is the process of creating an integrated circuit (IC) by combining thousands of transistors into a single chip. VLSI began in the 1970s when complex semiconductor and communication technologies were being developed.

This FDP is mostly focused the basics in digital design along with the coding concepts of digital circuits using VHDL and Verilog HDL along with the simulation using EDA Tools as an hands-on session in VLSI domain to empower Faculty, Researchers and students with professional education using innovative technical design with the help of "XILINX".

TOPICS COVERED BY THE SPEAKERS:

| DAY | SPEAKER | TOPIC | |
|------------|--|-------------------------------|--|
| 09-07-2020 | Mr.S.M.Hemath Kumar | Kumar CAD Tools for VLSI | |
| 10-07-2020 | Mr.Vijaykumar R.Urkude | ude FPGA design through VHDL | |
| 11-07-2020 | Mrs.Anusha Pinisetty Digital Design through Verilog HI | | |
| 13-07-2020 | Mr.Chandra Sekhar Sattar | Applications of FPGA | |
| 14-07-2020 | Mr.J.Sunil Kumar | Layout Design using EDA Tools | |

COORDINATORS:

Mr.J.SUNIL KUMAR, Assistant Professor, Department of ECE acted as Coordinator for this FDP "Trends in Digital Design".

Mrs.ANUSHA PINISETTY, Assistant Professor, Department of ECE acted as Joint-Coordinator for this FDP "Trends in Digital Design".

PARTICIPANTS: Total 461 participants had registered for the FDP and around 250

A Report on 5 Day Faculty Development Program

On

"Blockchain Technology & its Applications".

Date: 30-07-2020

Department of CSE conducted **5 day Faculty Development Program on** "Block chain Technology & its Applications", associated with Brain-o-vision solutions, Hyderabad, from 29-06-2020 to 03-07-2020, for Faculty, Researchers and students.

Speaker: Intazar mehdi, Brain-o-vision solutions, Hyderabad, as the resource person for this FDP.

The main objective of this program is to inculcate the knowledge on latest technologies of **Blockchain Technology & its Applications**, to motivate Faculty, Researchers and students to do and participate in effective research activities.

Coordinators: Dr S. RANGA SWAMY, Associate Professors, Dr. C.Basava Raj, Associate Professors, Mr. S. Dilli Babu, Assistant Professor & Mr. M. Vishnu Vardhana Rao, Assistant Professor, from CSE Department acted as Coordinators for this FDP.

Total 100 Number of members had participated in the FDP. This FDP session had provided an excellent opportunity to learn about **Blockchain Technology & its Applications** to all the participants.

Date & Time: The FDP was conducted from 29-06-2020 to 03-07-2020 at 10:00 AM-11:30 AM

Vignan's Institute of Managament & Tachnology For Women

[Sponsored by Lavu Educational Society]
(Approved by AICTE. New Delhi & Affiliated to JNTUH, Hyderabad.)

We would like to thank our honorable Chairman Sri Dr. L Rathaiah garu, CEO Sri B. Shravan garu, Principal Dr. G. Apparao Naidu garu and Smt. Indrani garu. HoD of CSE for their support for successful completion of 5 days FDP.

The Faculty, Researchers and students participants felt very happy for attending the program and most of them given excellent in feedback.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

ABOUT THE INSTITUTION:

Vignan's Institute of Management and Technology for Women (VMTW), is the brainchild of Dr. L Rathaiah, Chairman, Vignan Group of Institutions, which was founded in August 2008, with four branches of Engineering.

VMTW is an exemplary institution of higher learning with a mission of pursuing excellence in education and research. The institution, with its diverse and dynamic community of about 2000 students offers a distinctive combination of some of the finest facilities for 7 different graduate, and undergraduate programs, accomplished faculty, world-class facilities with a hostel set on a sprawling area of 22 acres sylvan surroundings of mango groves and greenery.

While students at VMTW immerse themselves in academics, the college has a lot in store for them outside the classroom. Student life includes participation in sports, recreational & co-curricular, and cultural activities. In short, at VMTW students will find an academic and social environment where everyone from faculty members to peers helps shape their future.

VMTW is a home to aesthetically designed buildings with state-of-the-art computer and internet facilities, modern laboratories, workshops, seminar halls, auditoriums, and well-stocked libraries, sports, and games fields.

The Institution boasts of a strong alumni network with alumni events held every year serving as a platform for past students to give back to VMTW and share their experiences with its present fellow students. With so much to offer, it is only natural that students of VMTW get a unique opportunity to carve a niche for themselves in their chosen field of study that enables them to become well-rounded and discerning citizens, fully qualified for their chosen professions in the workplace. Institute also brings out the creativity in students by imparting engineering knowledge imbibing interpersonal skills to promote innovation, research, and entrepreneurship.

ABOT THE DEPARTMENT:

Department of CSE, VMTW has started B.Tech in Computer Science and Engineering in the year 2008 with an intake of 90. The scholarly ambiance in CSE Department is encouraging to the complete development of the students with well-equipped labs. Department has dedicated and professionally well competent faculty and the many of the faculty are pursuing Ph.D. in emerging areas like Artificial Intelligence, Machine Learning, Cyber Security, Data Science and Block Chain. The main objective is to prepare the students to be successful in Computer Science Engineer to meet the industry needs, encourage lifelong skills and strengthen research.

ABOUT THE PROGRAM:

In January 2020 the World Health Organization (WHO) declared the outbreak of a new corona virus disease in Hubei Province, China to be a Public Health Emergency of International Concern. WHO stated there is a high risk of the 2019 corona virus disease (COVID-19) spreading to other countries around the world? WHO and public health authorities around the world are taking action to contain the COVID-19 outbreak. However, long term success cannot be taken for granted. All sections of our society - including businesses and employers - must play a role if we are to stop the spread of this disease. WHO and public health authorities around the world are taking action to contain the COVID-19 outbreak. However, long term success cannot be taken for granted. All sections of our society - including businesses and employers - must play a role if we are to stop the spread of this disease.

changing day to day life in unprecedented ways. All sections of society - including employers and employees - should play a role to protect themselves and each other and help prevent further spread of the disease. WHO is providing advice and

updated information on COVID-19, and on how employers can protect their employees, what measures they should take in the workplace and other related factors.

These resources will help you through the key steps of reopening your business in the wake of the COVID-19 pandemic, including:

Making sure your facility is fully clean, disinfected and equipped with a blueprint for maintaining safe conditions. Setting up a support system in place for employees as they return to work and adjust to new realities and emotional challenges presented by the COVID-19 pandemic. Creating a plan for a safe work environment that protects employees and customers alike from risks connected to COVID-19, including exposure and transmission.

OBJECTIVES:

- Preventing and mitigating COVID-19 at work.
- What can governments and companies (including enterprises of all sizes) do to prevent and manage COVID-19 risks?
- Which sectors are more at risk from COVID-19.
- Getting your workplace ready for COVID-19
- Build the right infrastructure for the virtual workplace
- · Risk communication and community engagement
- $\bullet \quad \text{Mental health considerations during COVID-19 outbreak} \\$
- Explore alternative work sites beyond home and the office
- How will COVID-19 change the future of work?
- UPDATE OR DEVELOP NEW HEALTH AND SAFETY

EXPECTED OUTCOMES:

- UPDATE OR DEVELOP NEW HEALTH AND SAFETY
- Mental health considerations during COVID-19 outbreak
- Getting your workplace ready for COVID-19

Academic Year - 2019-20

A Report on

"How to manage the workplace during covid-19 pandemic"

Date: 29-06-2020

Department of Computer Science Engineeringhas conducted workshop on –"How to manage the workplace during covid-19 pandemic", during22-06-2020 to 26-06-2020 for Non – Teaching Faculty.

Speaker:Dr. Sindhu K, Gynaecologist, Hyderabad as the resource person for this Five day workshop session.

The objective of this program is to provide deep knowledge on how to manage workplace during covid-19 pandemic.

Coordinators: Mr. B. Phijik, Assistant Professors, from CSE Department acted as Coordinator for this workshop.

Total around 29 Non-Teaching faculty had participated in the workshop. This workshop session had provided an excellent opportunity to learn about **How to manage the workplace during covid-19 pandemic** to all the participants.

Date & Time: The workshop was conducted during 22-06-2020 to 26-06-2020 from 10:00 AM-3:00 PM.

We would like to thank our honorable Sri Dr. L Rathaiah, Chairman, Sri B. Shravan, CEO, Dr. K. Chandra Shekar, Principal and Mrs. V. Indrani, HOD-CSE, for their support for successful completion of Five day workshop. The entire non-teaching Faculty, participants felt very happy for attending the program and most of them given excellent in feedback.

PRINCIPAL

Topics Covered in workshop

COVID-19 spread is emotionally challenging for many people, changing day-to-day life in unprecedented ways. All sections of society - including employers and employees - should play a role to protect themselves and each other and help prevent further spread of the disease. WHO is providing advice and updated information on COVID-19, and on how employers can protect their employees, what measures they should take in the workplace and other related factors. Therefore, the management should be a skilled, experienced, and motivated set of individuals, who will do whatever necessary for the best interest of the company and stakeholders.

Workplace preparedness during COVID-19 requires employers to provide the productivity tools and support employees need to be effective when working remotely.

Following are tips for ensuring employees have the tools and support they need to be productive, effective and connected while working remotely.

- 1. Prioritize health and wellness above all else
- 2. Build the right infrastructure for the virtual workplace
- 3. Combat productivity/engagement pits with virtual cultural initiatives
- 4. Explore alternative work sites beyond home and the office
- 5. Treat communication as a two-way street

As COVID-19 spreads to an ever-growing segment of the global population, the top priority of every organization in this time of crisis should be on protecting the health of its talent, customers, vendors and other stakeholders. Countless organizations are demonstrating their commitment to slowing the spread of the virus by closing facilities (or parts of them), and deploying a remote working plan.

While sending employees to work in the self-contained bubbles of their homes keeps a large segment of workers safe, what about employees who cannot do their jobs remotely? Some organizations are quarantining mission-critical functional areas that must remain in operation, cordoning off physical spaces where those employees can do their jobs without coming into contact with other people. Some energy companies are even exploring the idea of having power plant operator's sleep in the plant to minimize exposure to germs.

Vignan's Institute of Management & Technology For Women Kondapur (V), Ghatkesar (M), Medchal-Malkajgiri (Dt)-501301

Telangana State

Such measures may seem extreme and will surely be disbanded when social distancing is no longer required, but one thing the pandemic has made it clear is just how important it is to pay attention to "building health" issues such as ventilation, air filtration, cleaning and facilities management preparedness. The desire to work in healthy buildings will not dissipate any time soon.

How will COVID-19 change the future of work?

It's impossible to predict the long-term implications of today's sudden, massive shift to remote work, but a few outcomes are possible. One is that employees and business leaders alike will open their eyes to the value that can be unlocked when each individual has the freedom to work where and when it makes most sense—which may be from home at least part of the time. Yet it's just as likely that we will emerge from this period craving the face-to-face interaction that has been sorely missed, and with a greater understanding of how physical space influences the way we all feel and work each day. Workplace strategists and designers will have an ever-more important role to play in shaping the future of places and spaces where we can come together to connect, work productively and be inspired.
